

as a field of trees
as a meadow flower
as a herd of cows
as a flock of sheep
as a nesting site for lapwing and curlew
as a place to keep a dog on a lead
as an outcrop of rocks
as a bog of peat
as a measure of time
as place of culture
as a place to be managed
as an artwork
as a community resource
as a stonewalled container
as a stretch of roaring bright river
as a patch within a patchwork
as a place within an ecosystem
as somewhere in Yorkshire or Wales
as a speck on the planet
as a shape on a map
as an area of outstanding natural beauty
as somewhere between
as a walk in June
as a beck meanders
